PRODUCTS & SERVICES

PatientLink360 Digital Check-in

Complete clinical and practice management intake.
Includes bill pay.

Forms can be displayed on digital devices, kiosks at time of visit,
or can be completed at home.

PatientLink Online

Online forms can be completed at home or in office.
Works with portals, or can be used outside of a portal.

PatientLink Scan

Because it meets the needs of diverse populations, it is still
our most requested product!

Patients answer paper questionnaires. PatientLink software
digitizes it, then sends it as discrete structured data into the
EHR. Signed forms can also be sent to the patient charts.
Scanners are multi-use and accommodate all other
scanning needs.

DIGITAL CHECK-IN

ONLINE

SCAN

**We can build
ANYTHING!**

When considering partnering with a company, it's who they are that makes the difference. Are they **honest**? Are they **reliable**? Do they **take care of their clients and partners**?

Our Strengths:

- **23 years** of building patient engagement solutions to meet the needs of providers, patients, health systems, and researchers.
- Strong engineering team with **decades of experience in healthcare technology**.
- Strong support team who puts the **customer first** and helps them resolve issues - even when the issue isn't with our software.
- Very involved in national Health IT technology community and US policy.
- Monitor and respond to patient and health organization needs.
- We work very closely with our clients to make sure we understand their needs. We're happy to build custom forms and to provide services to meet their specific needs.
- **Tens of thousands** of patients use our products every day.
- Continue to build and add more solutions to meet the growing needs of patients and health systems.

Our Mission:

- Dedicated to building innovative software solutions to provide bi-directional data flow between patients and their full care team, improving the lives of patients and clinicians.
